Subject: Re: Legal Notice M0490076

Penny - I replaced the two 'description paragraphs' with the shortened version that we have been using for the last several publications. This shortened the notice significantly. I saved it as 'public notice rev.doc'

Rules require we send the notice to 'all' papers of general circulation within the county where the operation is located as well as 'a' paper of general circulation in Salt Lake City. (emphasis added). I question 14 papers of general circulation (I think a local city paper is not necessarily a paper of general circulation for the county, even if it is published daily). I think we can still justify sending it to only the major 'county' circulated papers, and maybe the city paper closest to the operation. We should discuss this with Paul in the morning.

I've started the legal notice for this site. Please take a look at it and take out as much as you can (cost). There are 14 newspapers in Utah County do you want me to send the notice to all of them? Also, I will need a map for the RDCC. Thanks.
